

Job Title:

Mechanical Press Operative

Job Overview:

An opportunity has arisen for a highly-motivated *Mechanical Press Operative* to join our team in Gweedore Business Park.

Irish Pressings is the Irish Engineering Manufacturing Team of the Year 2020 and operates to the highest quality and efficiency standards in the sector.

Working as part of the Production Team, the *Mechanical Press Operative* will be responsible for operating large mechanical presses and the packing of finished products for dispatch and shipping.

Job Duties:

Responsibility for operation of mechanical presses used in the manufacture of metal-pressed components and prototypes.

Press operators must ensure that the press is set-up for operation in accordance with the detailed machine set-up instructions provided for each individual job.

Operator will be proactive and flexible with the ability to operate as part of a cross-functional team and undertake other relevant activities – such as operating weld cells – as and when required.

Responsibility for the recording and maintenance of quality records related to production to ensure – alongside Quality Control team - that all parts produced meet the required industry and customer specifications.

Work as part of a cross-functional team that includes Admin, Sales, Tool-room, Production and Logistics to ensure that all customer orders are completed accurately, on time and to the highest possible quality standards every time.

Job Requirements:

Previous experience operating Mechanical Presses is highly-desirable but not essential.

Candidate must demonstrate experience and knowledge of industrial machine operations.

Candidate must be able to keep a detailed accurate record of Quality measurements and inspections.

Ability to show accuracy, attention to detail and a capability to check accuracy and quality of finished parts.

Demonstrate a proactive approach to work and a desire to progress further in the company.
