

Job Title:

M&E Engineer

Job Overview:

An opportunity has arisen for a highly-motivated and experienced *Industrial Mechanical and Electrical (M&E) Engineer* to join our team in Gweedore Business Park.

Irish Pressings is the Irish Engineering Manufacturing Team of the Year 2020 and operates to the highest quality and efficiency standards in the sector.

This multi-skilled role will see the *Industrial M&E Engineer* work as part of the Maintenance function of the company which is responsible for the upkeep of all Electrical and Mechanical equipment on-site.

Job Duties:

- Electrical and Mechanical fault-finding and troubleshooting of machinery and equipment
- Conducting physical and visual checks on site machinery and equipment as required
- Conducting the required preparatory electrical and mechanical works associated with new machinery/equipment installation
- Conduct PPM as required
- Keep machinery and equipment downtime to a minimum
- Attend to machine breakdowns and solve/diagnose any electrical or mechanical failures
- Conduct repairs and upgrades through the plant as required
- Other general Electrical and Mechanical duties

Job Requirements:

- A recognised electrical qualification is essential
- Minimum of 1+years of experience in a manufacturing/industrial environment
- Experience and strong skillset in fault-finding is essential
- Experience of 3-phase installations
- Knowledge of automation, sensors, PLCs, etc. strongly preferred
- Good computer literacy i.e. MS Office
