

Job Title:

Machine Operator (including Waterjet and Gas Flame-cut)

Job Overview:

Irish Pressings has an immediate vacancy for a Machine Operator to join the Irish Manufacturing Engineering Team of the Year at our plant in Gweedore, Co. Donegal.

The successful candidate will become an integral part of the Tool Manufacturing function at Irish Pressings – a globally-recognised high-quality supplier of press tools and metal stampings to the automotive industry.

Job Duties:

- Daily machine setup in line with operator guidelines and relevant work instructions
- Safe operation of large workshop machines including Waterjet and Gas Flame-cut machine
- Management of project sequencing, part numbering and stock control/rotation
- Management of machine upkeep and daily maintenance tasks
- Ensure work area and all required tools/equipment are maintained to an exceptional standard
- Receive and carry out duties from designated Supervisors
- Participate in on-the-job training as and when required
- Performs other duties as assigned

Person Requirements:

- On-the-job training will be provided but operator must have good mechanical knowledge and a keen interest in learning about machinery operation/equipment
- Excellent attention-to-detail and a commitment to quality is required
- Ability to read and interpret CAD drawings
- Ability to operate and monitor machinery
- Must be able to understand and comply with all relevant safety practices
- Knowledge and use of common hand tools
- Must work well under pressure, meeting and completing multiple deadlines.
- Must be able to work proactively under own initiative as well as working with colleagues to meet deadlines and achieve team objectives.

Line Management:

- This role services the Toolroom which is part of the company's Engineering Department
- Direct line-management is responsibility of Machining Area Supervisor

Working Details:

- Core working week of 39-hours (Mon-Fri)
- Salary commensurate on qualifications, demonstrable skills and experience

Review schedule:

- Permanent full-time role pending successful completion of 3-month probation period
- Role and related aspects subject to annual performance appraisal process
